

BAYRAK

BAYRAK

Bayrak Proje İnşaat ve Oto. Tic. Ltd. Şti.

In 1969, Bayram Bayrak, the deceased entrepreneur has established Oto Bayrak personal initiative to provide trucks and spare parts for trucks. Oto Bayrak was the first steps towards Bayrak Project Construction. At present, Oto Bayrak is still supplying truck spare parts in Samsun and to neighbouring provinces.

Cengiz Bayrak, one of the partners of Oto Bayrak and **Bayrak Project Construction** had formed a partnership with Aryapı Construction Co. between 1994 and 2010. During these years, Aryapı had constructed airports along with runways, aprons, military lighting systems, uninterruptable power supplies, passenger terminals, cargo terminals, heating systems, air-conditioning systems, fire systems, aerodromes, fighter jet shelters, aircraft fuel storage tanks, pumping stations, fuel filtration and fuel filling systems. Also, Aryapı had constructed ports, wave breakers, piers, underwater pipelines and terminal systems, blast proof and electromagnetic proof buildings and bunkers and control stations, pipelines, interchanges and roads, military and public buildings, and mass housing.

Between 2003-2019, **Bayrak Company** has serviced construction sector domestically and internationally (as bridges and viaducts, drinking-utility water and sewage, highways, dams and power plants, superstructure works) and automotive sector domestically. From 2019 Bayrak Companies continue its way separately as Samsun Bayrak Automotive places in automotive sector and **Bayrak Project Construction** places in the construction sector domestically and internationally.

QUALITY MANAGEMENT

As Bayrak Project Construction;

To fulfill our responsibilities towards our country, our business partners, nature and our employees, in other words, our entire environment:

- To be responsible for quality with all our management and employees who have adopted the culture of continuous and sustainable improvement,
- To work with the realization of the understanding of quality in every field and transforming quality into a lifestyle, in line with the goal of constantly achieving the best, meeting the needs and expectations,
- To observe the mutual benefit and development of all parties we work with and the society we are in, for a sustainable future,
- To manage our processes effectively by applying the requirements of our Quality Management System in the best way, to adopt the principle of continuous improvement,
- To work in compliance with laws and regulations with the principle of respecting the environment, having developed environmental awareness, protecting global resources,
- To give importance to training for employees who are aware of the Company's goals and policy, with the principle of Contemporary Quality Management, and who have a developed quality awareness,
- To increase productivity by working in mutual cooperation and trust with our supplier and contractor business partners,
- To be solution partners in order to keep the satisfaction of the institutions and organizations we serve at the highest level and to ensure their continuity, We are committed.

CERTIFICATES

EHS AND ENVIRONMENT POLICY

As Bayrak Project Construction;

- ➔ To comply with all legal requirements related to Occupational Health and Safety (OHS) and Environmental Issues and to continuously improve it by making it a part of the company culture,
- ➔ To periodically review the OHS and Environmental Policies and to ensure continuous improvement in matters related to OHS and Environment,
